DEVELOPER DAYS

ABOUT THE DRUPAL DAYS

Drupal Dev Days (aka DDD) are an annual conference where **Drupal developers gather to discuss** and present topics technically relevant to the **Drupal community.**

The event hosts **"sprints"**, intensive coding sessions devoted to squashing bugs, upgrading modules, start and/or complete **development tasks.**

Started in 2010 in Munich, the DDD, travels every year through different cities and this time **the chosen city is Sevilla**!

The Drupal Dev Days are a good opportunity for work shoulder to shoulder with other developers who cultivates the same interests and passion.

THE CONFERENCE AGENDA

Drupal Dev Days will be held in Sevilla from 21st to 25th March 2017, every day from 9am to 6pm at an unique and magic place...

Sessions
Several tracks of presentations focused on Drupal, PHP and web development . As with other Drupal community events, the focus of Drupal Dev Days is on sharing experiences with other attendees, eager to learn about the latest tricks, best practices, tools, and whatever can take the Drupal Developer skills and productivity to the next level.

Sprints
Another sharing opportunity that community events offer to Drupal people is the chance to help move the project forward along with peers and colleagues for long, fun days. They will be mentored by experienced developers who will offer helpful insights to beginners.

Remember: sprints are not only for Drupal coders! There are issues for every skill set and experience level! There are a lot of ways of contributing.

THE VENUE

Next DDD edition will be held in a incredible place on the banks of the **Guadalquivir River** just stone's thrown from historic centre of Sevilla. There is a magical universe suitable only for intrepid companies and developers lovers of Drupal.

Isla Mágica Theme Park.
Pabellón de España, Isla de la Cartuja
